Clients stay with Integro time and time again because of our high quality client focused approach.

Why Integro?

Integro is a Latin word that translates, "make better, make well." We chose it for our name because it embodies our purpose. We are a global insurance brokerage and specialty risk management firm driven to deliver dedicated, quality insurance brokerage services through client-first, transparent business practices.

Since 2005, we've pioneered a unique approach to managing risk: we begin by taking the time to get to know our clients inside and out. Then we deploy superior analytical methodologies to deliver the in-depth and timely information necessary to recommend the best program design and coverage to fit our clients' specific needs.
